

## Pupil Voice about School 31.3.22

If I started the sentence "School is..." how would you finish it?

School is...

Great, awesome, amazing, magnificent, fun, good for learning, happy, good at helping you to improve.

If you were stuck on something, what would you do?

Try by myself first, ask a friend, ask a teacher, get a 100 square or a number line, look around the class for ideas, use your fingers in maths, use my knowledge from my head.

Do you feel safe in school?

Of course, yes definitely, I'd even feel safe if I was snowed in! people around us help, teachers keep us safe, Mrs Shute's most important job is to keep us and the grown ups safe.

How do you feel about school? Tell me some words to describe your feelings.

Happy, joyful, safe, excited, concentrate, curious, sometimes shy.

What do you really enjoy, what's the best thing that you do in school?

Science because I like experimenting.

Art because it is fun and you use your imagination.

Maths because you can work out tricky answers.

I love learning about the plants in our outdoor area, I can draw them and it helps me plant at home.

P.E makes me fit and healthy.

Art, I love to draw stuff.

If you had a magic wand and could make changes to anything in school that you wanted to, what would you change?

I would like to go on the trim trail before and after school. I would only do art. Comfy chairs in the classroom like the staffroom. More sweets and chocolates. I would turn

myself into a teacher and stay for ever. I would be a school councillor and make the only rule be have fun!

What would you say to a new friend? "It's a good school to come to because..."

The children are nice.

I would give them a tour and show them all the cool stuff.

You don't just sit down, its fun and you learn outside and there is a D.T area and the hall and smallworld.

School dinners are brilliant because you get to be servers.

Just now we are making salt and salt dough animals.
